

Global Talent Recruitment Announcement

Institute of Eco-Chongming, East China Normal University

Institute of Eco-Chongming (IEC), located on the Chongming Island, Shanghai, a scenic world-class ecological island, is a research institute newly established by East China Normal University. Governed by the value of open cooperation and the pursuit of excellence, IEC's mission is 1) to establish an international interdisciplinary research platform for ecology, environment, and Earth system sciences; and 2) to establish scientific, technological, and policy pillars to support sustainable development of Chongming to be a world-class ecological island. Based on Chongming, IEC strives to serve Shanghai and China, and impact the world. Currently, IEC is actively building a national ecosystem observation and research station and working closely with the State Key Laboratory of Estuarine and Coastal Research (East China Normal University).

Positions Available

For the needs of strategic development, IEC is seeking to globally recruit qualified individuals for the positions of professors or associate professors (3-5), and the

崇明生态研究院 **Institute of Eco-Chongming**

position of “Chongming Postdoctoral Fellows” (more than 3) in the fields of ecology, environmental sciences and geoscience or other relevant fields. Professors and associate professors are required to hold a PhD degree with excellent international academic background and research achievements that have made or have a potential to make an impact on their fields and recognized domestically and internationally. “Chongming Postdoctoral Fellows” are senior postdoctoral researchers with a PhD degree and can conduct scientific research independently.

Areas of Research: prevention and control of water pollution, ecological restoration, ecological monitoring, ecological modelling and remote sensing, the carbon cycle and nitrogen cycle, assessment and planning of eco-islands, or other relevant fields in ecology and geoscience.

Salaries and Benefits

1. IEC shall provide employees with an internationally competitive compensation package, including salary, start-up research funds and housing allowance, contingent on applicants’ working experience and potentials;
2. ECNU shall provide employees with other benefits, such as registration of permanent residence in Shanghai, social and health insurance, housing deposit funds, temporary apartments, and other benefits related to children's school admissions in accordance with regulations at ECNU.

Application Procedures

IEC plans to recruit global talents on the following venues:

- a. The 2020 ECNU International Forum for Young Scientists (Scholars), to be held in Shanghai, China (pending);
- b. ESA Annual Meeting 2020 (Ecological Society of America Annual Meeting), to be held on August 2–7, 2020, in Salt Lake City, USA;
- c. AGU Fall Meeting 2020 (American Geophysical Union Fall Meeting), to be held on December 7–11, 2020, in San Francisco CA, USA.

The positions will remain open until filled. To apply, please submit the following
